

High Pressure Fire Hoses

C-Jet Fire Hose

A new concept replacing four layered hoses

CONSTRUCTION

All synthetic jacket, totally encapsulated in a synthetic Rubber blend to form a high quality, unified lining and cover, for better abrasion and heat resistance.

FEATURES

- For heavy duty purposes
- Can be used in highly critical applications
- Replaces four layered hoses
- Withstands extremely high pressures
- Compatible to multi-stage water pumps
- Inert basic materials used for protection against corrosive chemicals and alkalies
- Unsurpassed heat resistant
- Unaffected by ozone and ultraviolet radiations
- Manufactured with state-of-the-art machinery
- Flexibility: makes it less bulkier than four layered hose

- Low weight ratio vis-a-vis pressure ratings for a similar four layered hose
- Bright yellow colour for easy visibility in emergency situations
- Manageable coil diameter for portability
- C-Jet actually exceeds requirements of BS:6391 Type 3 specifications
- High kink resistance for reliability when subjected to sudden jerks and bends
- High abrasion resistance

APPLICATIONS

- Fire departments
- Oil companies
- Gas companies
- Petrochemical industry

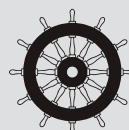

APPROVALS

- UL Listed under UL-19 by Underwriters Laboratory U.S.A. (Model CNP-75)
- MED WHEELMARK approved under EN 14540
- Lloyd's approved to EN 14540 Type 3
- Conforming to BS 6391 Type 3
- IRCLASS - Indian Register of Shipping
- ISI Marked

| Size mm / inches | Working Pressure (psig) | Proof Pressure (psig) | Burst Pressure (psig) |
|------------------|-------------------------|-----------------------|-----------------------|
| 1 1/2" (38mm)* | 330 | 500 | 750 |
| 1 3/4" (45mm) | 330 | 500 | 750 |
| 2" (50mm) | 330 | 500 | 750 |
| 2 1/2" (63mm)* | 330 | 500 | 750 |
| 2 3/4" (70mm) | 330 | 500 | 750 |
